

This is the first non-pyro special effect fixture in the world. The fixture will produce sparkler effects ranging from 5 to 15 feet in the air for up to 90 seconds at a time. As many as 18 units can be controlled at one time, and when used with our controller, we can create unbelievable visuals. Call today for more information.

- Height, duration, and density of the effects can be individually controlled.
- Effects can range from 5-15 feet high.
- Each burst can last from 1-90 seconds.
- Each unit provides approximately 10 minutes of total effect time.
- Sparktacular effects are perfect for introductions of a special guest or team, and there is no limit to applications for these effects.
- Creative visuals can be produced by having multiple units triggered at different times.

#### **SPECIAL CONSIDERATIONS:**

- Units must be pointed straight up and cannot be tilted
- Units must be placed 8 feet from crowds to ensure safety
- All rentals include a certified technician to operate and run the fixture at your event. (We must provide our own certified technician to operate the fixtures and controller.)

**WEIGHT:** 18.7 pounds  
**DIMENSIONS:** 8" x 8.5" x 11"

Pricing is dependent upon number of fixtures needed, timing of your event, and location of event. Call for pricing.
