WHY SYNERGETIC?

We answer the phone.

We know you want to talk about making your wedding different. We know your wedding needs to look phenomenal. We know everyone should be jealous of your wedding.

Let's talk about it!

We are a team player.

Not only does our work look stunning, but we work well with your photographer, videographer, planner, band or DJ, and venue.

We help make their work look great too.

We are patient.

Our technicians show up early, stay late, and are used to moving something 4 times. And then moving it again.

OUR APPROACH

- ▶ Our account management team will make sure you know all of the lighting options available to you, as well as what fits best in your venue.
- ▶ We make sure to provide you with an easy to read quote, so you understand everything we are responsible for.
- ▶ You will have a friendly project management team leading up to your wedding to manage all the details.
- ▶ Our technicians are easy to work with, presentable, and smart.
- ▶ We make sure to collaborate with your other vendors for a seamless execution.
- ▶ Our lighting fixtures blend into the room, so you and your guests won't even notice they're there.
- ▶ We always arrive earlier than expected, are prepared to stay longer, and make sure we leave everything just as it was when we arrived.
- ▶ Our clients typically budget at least \$3,000 for their wedding. We do have a minimum spend of \$2,500.

DESIGN OPTIONS

Ceremony Lighting

Make sure everyone can see
you both say "I do".

CEREMONY LIGHTING

CEREMONY LIGHTING

Uplighting

The cornerstone of any lighting design for weddings. Illuminate the walls of your venue in any color.

UPLIGHTING

UPLIGHTING

Pinspotting

You spent a lot of money on your floral design. Show it off!
Oh, and let's show off that cake...
the place card table... and
anything else you want people to
see.

PINSPOTTING

A full-page photograph of a wedding reception in a grand hall. In the center, a bride in a white gown and a groom in a dark suit are dancing. They are surrounded by guests in formal attire. The room features large arched windows and columns, with blue and purple ambient lighting. A decorative horizontal line with a central flourish is positioned above the text.

Dance Floor Lighting

Your very first dance together. In that beautiful dress. Or that striking suit. Make sure everyone can see the both of you.

A decorative horizontal line with a central flourish is positioned below the text.

DANCE FLOOR LIGHTING

DANCE FLOOR LIGHTING

Dance Floor Lighting: Things to Know

It's very important to your photographer and videographer. Our lighting designs avoid the use of pre-existing fixtures in the room. We don't want the photographer constantly using flash, or the videographer setting up big, bright lights. We want our lighting to help them capture the reception easily.

Our lighting illuminates the space from the first dance to the last song.

Static or Moving Lights?

Our standard dance floor wash is static. It doesn't change color or more. But, when the band or DJ gets everyone on the floor, maybe you want to turn the atmosphere up a little.

Our moving lighting design is custom programmed to each song that is being played. The dance floor will come alive with energy!

Band Wash

You looked all over for the perfect band. Let's make sure everyone can see them doing their thing!

BAND WASH

Ceiling & Wall Patterns

Some venues have large, open walls. Or great big ceilings that scream “Light me up!”.

CEILING & WALL PATTERNS

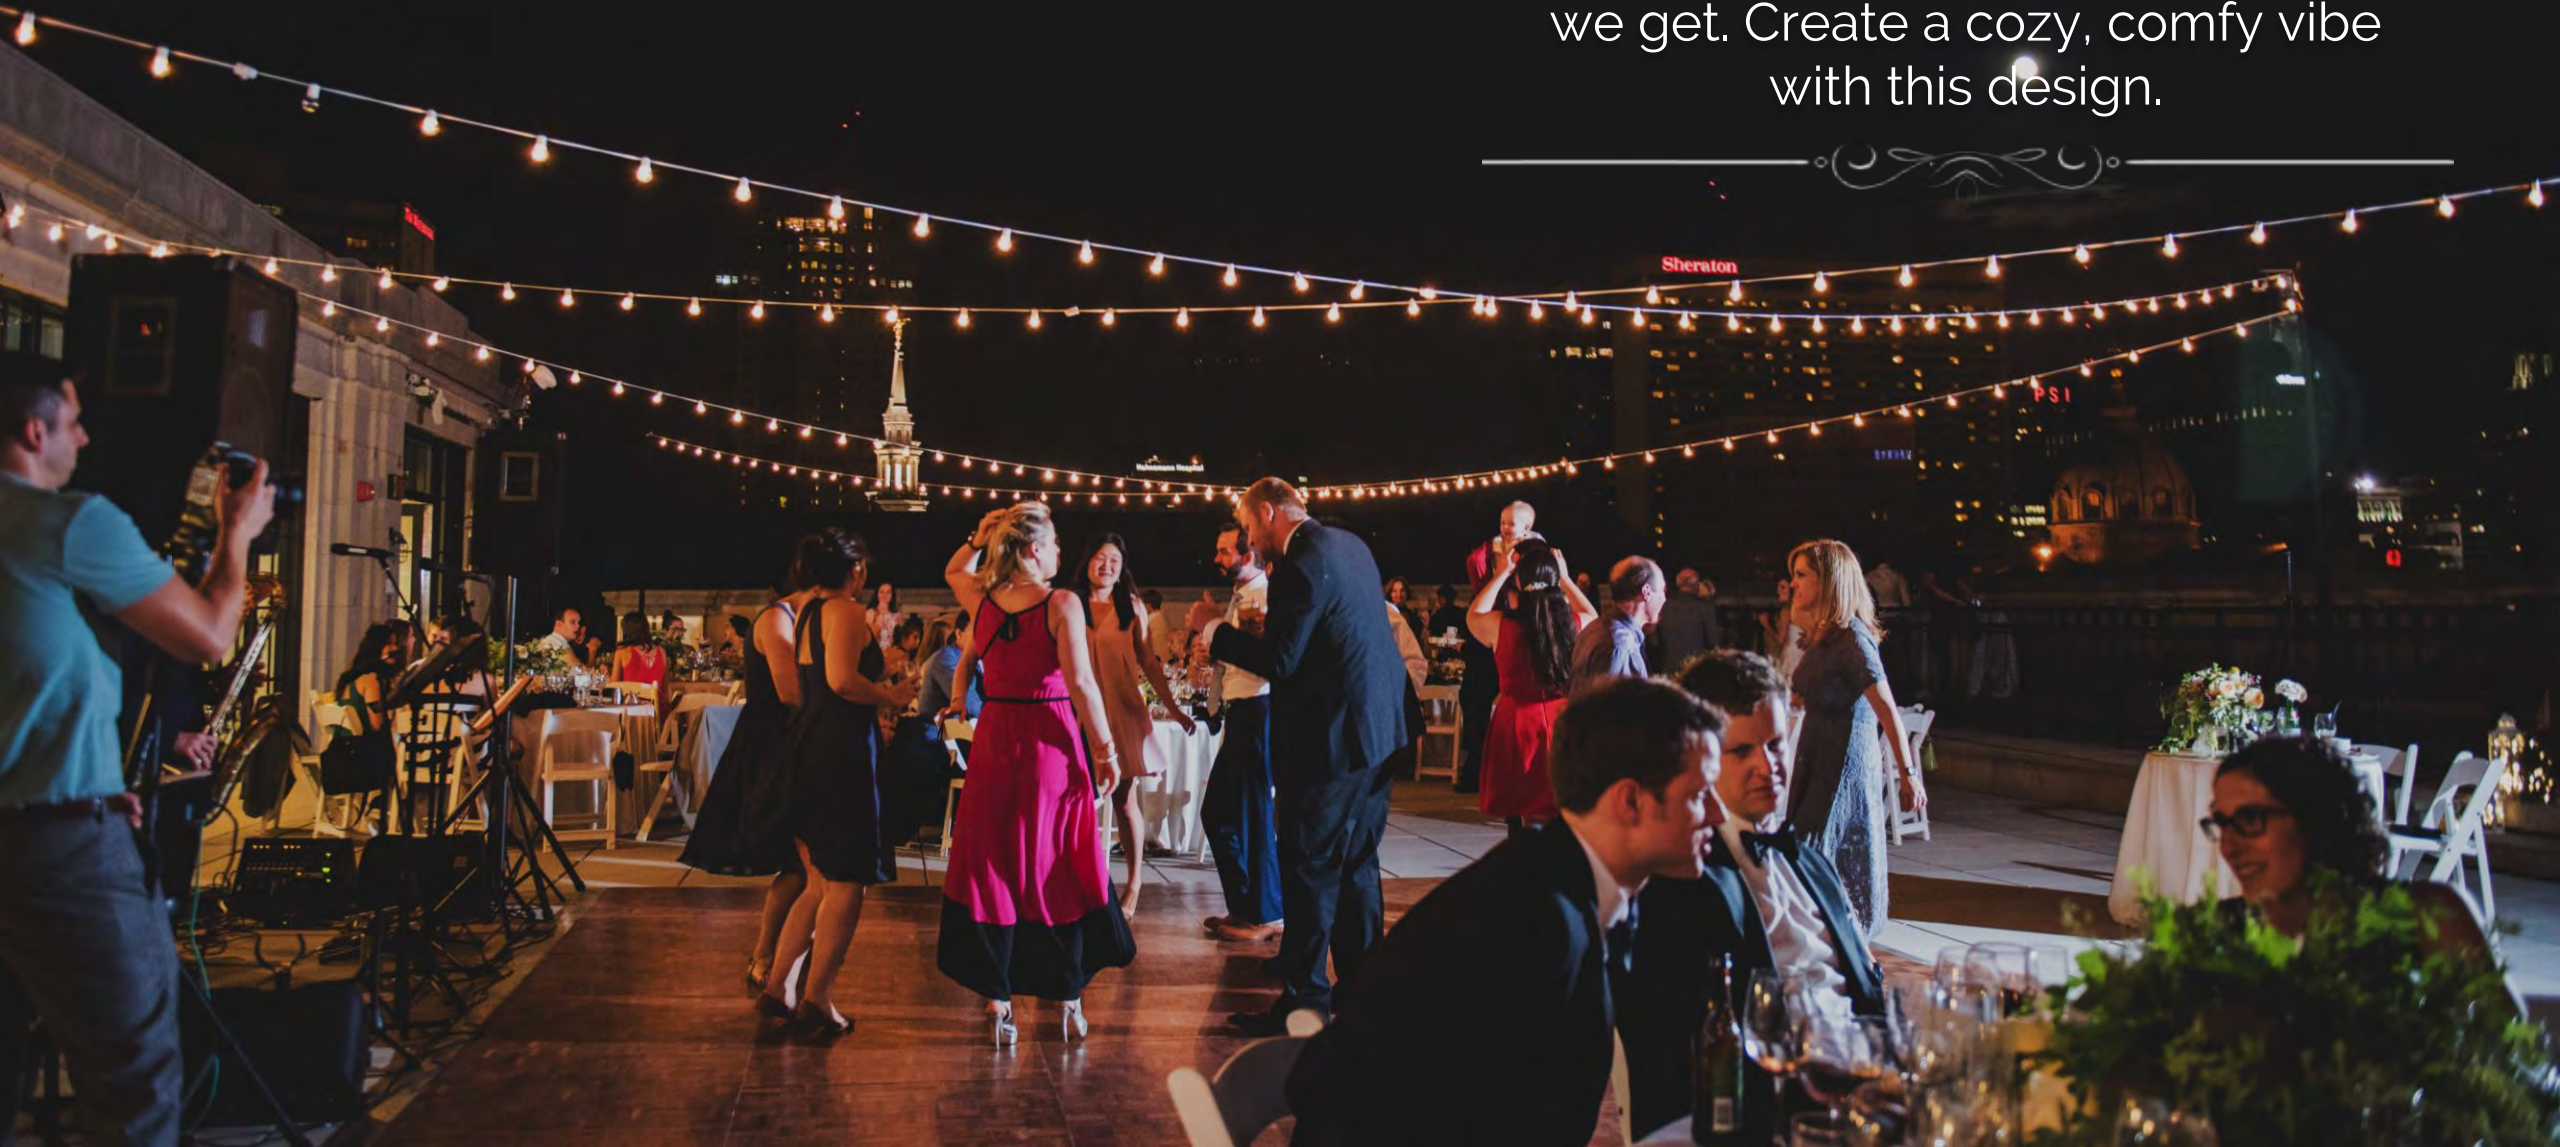

CEILING & WALL PATTERNS

Market & Bee Lighting

One of the most common requests we get. Create a cozy, comfy vibe with this design.

MARKET & BEE LIGHTING

Vintage Lamps

Let's take it back. Way back.
And bring out our vintage
lamps to create unique looks in
different places throughout
your venue.

VINTAGE LAMPS

Draping

There always seems to be a need for at least one section of drape. Whether you want a nice backdrop for the ceremony or band, or you need to hide an ugly wall.

D R A P I N G

A wedding reception in a grand hall with a couple dancing and pyrotechnics. The bride is in a white lace gown, and the groom is in a black tuxedo. They are dancing in the center of the room. In the background, a band is performing on a stage, and guests are seated at tables. Two large columns of light, resembling fireworks or sparklers, are positioned on either side of the dance floor. The hall has high ceilings and large columns.

Special Effects

Your wedding night is special. So why not add some special effects that give your guests something to talk about the next day?

Audio/Visual

Maybe you need a professional sound system for the ceremony. Maybe you need a screen to show a video montage. Our team can help with any extras you're looking for.

PROJECT MANAGEMENT

Our full-time team of account and project managers will make sure your concerns are listened to, every detail is considered, and that you feel confident about our services and support.

We will consistently communicate with you all the way up to the day of the event.

And on the day of: we arrive early, stay late, and support you with some of the smartest, most polite technicians in the area.
